**WARNING:**

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

OF PETITION UNDER 37 C.F.R. §1.137(b)**

Sir:

Applicants hereby state that the entire delay in entering the National Phase for PCT/DE2004/002110 since the original due date of March 22, 2006 until the filing of a grantable Petition under 37 C.F.R. §1.137(b) was unintentional. Applicants, unfamiliar with U.S. patent law, mistakenly understood the U.S. to be a 31-month country for purposes of entering the National Phase based on an International Application. Accordingly, Applicants diligently (based on their incorrect understanding) instructed the undersigned on April 14, 2006 to file the instant application in the U.S. by April 22, 2006 (an erroneous deadline). It was then that the undersigned informed Applicants of their error.

**Applicants:** Wieth et al.  
**Application No.:** Not Yet Known

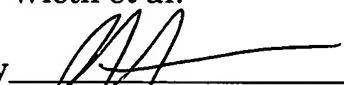

As Applicants had intended throughout this entire time frame to have the application proceed as a National Phase application in the U.S. based on the International Application PCT/DE2004/002110, it is clear that Applicants had always intended the application to enter the National Phase under 35 U.S.C. §371(c) by the original filing deadline. Accordingly, it is respectfully requested that the accompanying Petition be granted and the PCT application be revived for purposes of National Stage commencement under 35 U.S.C. §371(c).

Applicants note that the required filing and Petition fees, translation of the International Application, and the signed inventor Declaration are all enclosed herewith.

Respectfully submitted,

Wieth et al.
